STRATEGY ON MINIMIZATION OF PLASTIC WASTE AT UNIVERSITY

Government College Women University Sialkot

1. Purpose

The main purpose of this strategy is to make a zero-plastic environment at university and to introduce eco-friendly products and alternatives of plastic products in university. The main target of our action plan is to minimize plastic waste by reusing, recycling, and holding awareness campaigns at the university. The strategy aimed to encourage the students to participate in plastic reuse and recycling practices.

2. Policy

- Collection of plastic waste will be done.
- 3Rs rule will be applied (reduce, reuse, recycle).
- Reusable waste will be used in reusable practices.
- Alternatives of plastic products will be suggested at awareness campaigns.
- Scrap plastic will be sold away.
- Other plastic waste i.e., plastic straws and non-recyclable plastic waste will be sent for incineration or disposal.

3. Collaborative Committees: (Annexure 6)

Following departmental and central committees are collaborating in the effective implementation of this strategy:

Serial No.	Notified Committee	Notification No.	Date
1.	Camus Management Committee	D/REGC19/3152	02/12/2019
2.	Departmental committees, Environmental Science Department	GCWUS/ESE/2020/20,21	10/08/2020

4. Review Committee

Environment and Sustainability Committee

5. Methodology:

Following methodology is suggested to attain desired goals:
